

MAIN FEATURES:

- Portable design
- Touchscreen display
- Built-in RFID Card Reader
- Suprema Fingerprint Sensor
- Wi-Fi support
- Stand-alone operation
- 99 custom work codes
- Stores up to 1,000,000 events

PORTABLE DESIGN

Reliably tracks worktime without the need for fixed checkpoint locations. Employees can log their arrival, leave or any other activities, anytime, anywhere, even without continuous internet connection.

BIOMETRIC IDENTIFICATION

In some occupations, increased security and data protection is expected. The sensors of the world-leading fingerprint scanner manufacturer, Suprema, guarantee the reliable operation of the terminal.

USE IT ANYWHERE

Ideal for construction sites and agricultural companies, restaurants and in areas of increased security. Removing the need for keycards are not only practical, but also eliminates potential security risks.

ENTERPRISE USE

Even in an enterprise setting, the wireless operation could be advantageous. Easy installation and aesthetic design make it an excellent choice for office buildings too. The device is easily mountable on a wall fixture and can transmit worktime data in real-time using a Wi-Fi connection.

FEEDBACK OF WORKTIME DATA

The employee swipes their card or finger on the sensor in order to identify themselves. At this time, the selectable activity codes and their worktime data (i.e. time of arrival, worktime balance, breaktimes etc.) appear on the screen.

PHYSICAL PROPERTIES

Dimensions:.....262 x 160 x 30 mm
Display:.....8" touchscreen, 1280x800 resolution
Casing:Plastic

INTEGRATED PERIPHERALS

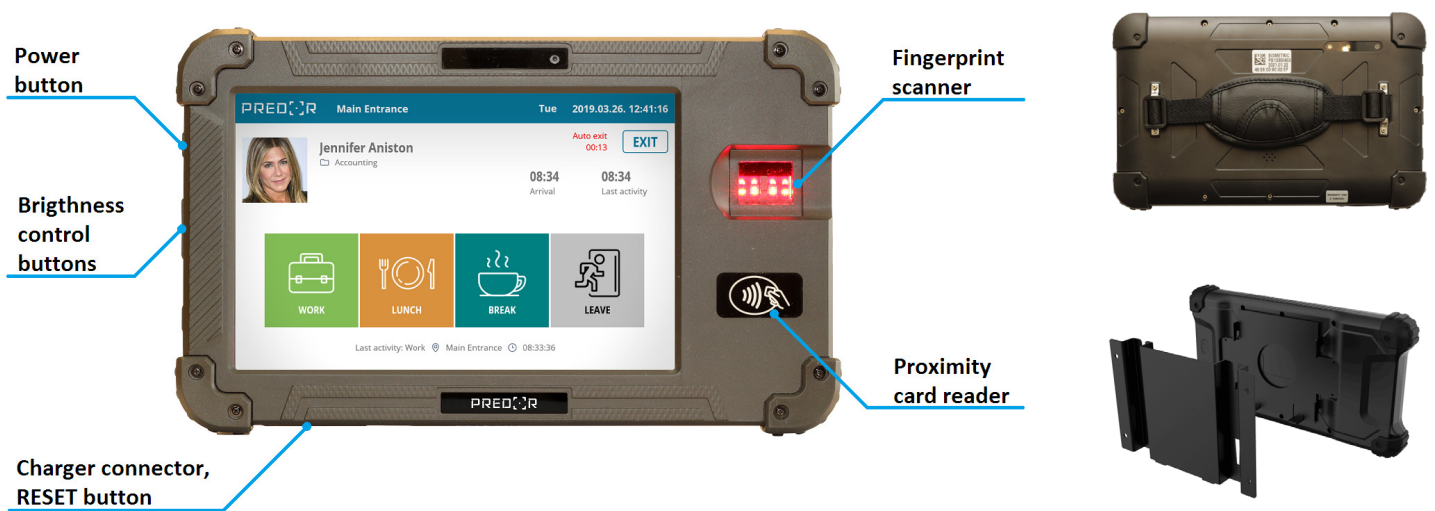

RFID Card Reader:ISO14443 Type A/B, Mifare®, ISO18092
Fingerprint Sensor:.....Suprema, optical (ANSI 378, ISO/IEC 19794)
Front Camera:.....2 Megapixels, fix focus

ENVIRONMENTAL PARAMETERS

Operating temperature:0-35°C
Operating humidity:.....10-90%
Storage temperature:.....0-50°C
Storage humidity:.....10-90%

ELECTRICAL PARAMETERS

Supply voltage:5V DC / 2A
Battery:built-in, non removable Li-Ion (8540 mAh, 3.8V)
Network:2.4 GHz Wi-Fi

PRACTICAL WRISTBAND

For the ease of portability the device is equipped with comfortable padded wristband.

WALL MOUNTED OPTION

With a wall console, that can be purchased separately, the device is usable as a wall-mounted terminal.
